RE: Everett Smelter Site – Completion of soil transport to the Tacoma Smelter Site

Dear Mr. Rochlin:

I am writing to inform you that the Everett Housing Authority transported the final shipment of residential material from the Everett Smelter Site to the Asarco Tacoma Smelter Site on November 10, 2005.

In 2004 Asarco transported and placed approximately 39,896 tons of Source material from the Everett Smelter Site to the On-Site Containment facility at the Asarco Tacoma Smelter Site. Also in 2004, Asarco transported approximately 32,323 tons of Residential material from the Everett Smelter Site to the Tacoma Smelter Site, where it was placed as sub-grade backfill. From July to mid September of this year, Asarco transported 18,084 tons of Residential material from the Everett Site to the Asarco Tacoma Smelter Site.

EHA, subsequent to Asarco's filing for bankruptcy protection, transported approximately 75,075 tons of Residential material from the Everett site to the Tacoma Smelter Site between September 8, 2005 and November 10, 2005.

The total quantity for all Residential and Source material shipped from the Everett Smelter Site to the Asarco Tacoma Smelter Site from June 2004 to November 10 of 2005 totaled approximately 165,378 tons.

Sincerely,

Darcy Walker
Everett Housing Authority
